

## Technology Valuation System: STAR-Value System

3<sup>rd</sup> October 2016

The “Technology Valuation System: STAR-Value System” seminar was successfully held by IACVA Hong Kong Chapter on 3<sup>rd</sup> October 2016 in Hong Kong. We are honoured to have CPA Australia as our supporting organisation. Excellent responses were received by members from the Hong Kong Chapter and the supporting party in the seminar. Our distinguished speaker, Dr. Hyun-Woo Park shared his extensive professional knowledge and solid experience in the technology valuation system during this seminar. Valuation approaches and models in the system were discussed and views were freely exchanged to familiarise attendee with the database and features of the system. We truly appreciate the participation of all parties, especially the generous support from CPA Australia. We look forward to holding more events with various supportive organisations in the future. For further inquiries, please contact Ms. Tracy Tam at [tracy.tam@iacvahk.org](mailto:tracy.tam@iacvahk.org).
